

Factory4

* Completed in April 2021

Automatic warehouse available

Building / steel-frame single story building with floor area of 939 m²

Outdoor material yard / Gantry traveling crane 2.8 t x 1 unit

Incidental equipment / Overhead traveling crane 2.8 t x 2 units

● Rolling dies (approx. 350 types)

● Finished product

Operations can be smoother by controlling in the automatic warehouse, resulting in better efficiency.

● A covered truck yard is provided between Plants No. 1 and No. 4.

This enables receiving products and preparing shipment while keeping materials and products dry even in rainy weather.
